

Swan Class

16th March 2018

Dear Parents/ Carers,

This week, we have continued our work on poetry. We have looked at 'The Land of the Bumbley Boo' by Spike Milligan; the children have looked at the words, structure and rhyme of this poem and written their own reviews.

In maths, we have continued to look at fractions and the children have learned to find fractions in their simplest forms. Some of the children have done this by working with diagrams and some have explored looking at dividing the numerator and denominator. For example, to simplify $\frac{4}{8}$ into $\frac{1}{2}$, you divide both the top and bottom number by their common factor of 4.

Please continue to practise the 3, 4 and 5 times tables and the spellings given each week. Please also ensure that your child has indoor shoes and a full PE kit for indoor and outdoor sport lessons.

Thank you for your delicious donation for India day, you were so generous. We still have quite a few containers left behind so please come and collect those.

Yours sincerely

Holly Welham
