

## **Pangani Class**

**22.6.2018**

Dear Parents/ Carers,

This week in literacy, the children have finished their character descriptions of Jamina from 'The Hunter'. They finished their model gardens and then wrote some fantastic persuasive adverts to encourage bees to visit. Next week, we will be looking at settings descriptions; we will be writing creative descriptions to transport the reader to the African savannah.

In maths, we have moved on to measurement. The children have focused on length and next week, we will move on to weight, capacity and volume. If you have any time to look at measuring jugs, rulers and weighing scales at home, please do!

Please also help your child to practise the formal written methods for addition and subtraction, please come to see us if you would like any help with this.

Well done to all the children for a fantastic sharing assembly, they should all be very proud of themselves!

### **PE Kits**

Please ensure that your child has a full outdoor PE kit with trainers. From next week, if they do not have a kit, they will not be able to participate.

### **Water Bottles**

A few children do not have water bottles. They must have these for school in the summer term so please make sure that your child has one.

### **Mornings**

At the start of each day, could parents encourage their child to sort their own book bag, water bottle and homework book. It is important that they can do this independently as they move to year 4. It is also important for the class to be settled at the start of each day.

### **Lateness**

**Please could you ensure that your child is on time and is in the classroom ready to start the day at 8.55 am. The children need to be settled and ready to learn before the day begins.**

Have a good weekend.

Yours sincerely

Eve Jackson
