

Upper Key Stage 2 Weekly Newsletter

Friday 29th June 2018

Dear parents/carers,

What a week!

The children have come back from Woodlands full of energy and raring to get stuck into the summer production.

All of the staff would like to say what a great time Woodlands was with the Year 6 children this year, they really showed what an amazing group of children they really are.

In numeracy we have been delving back into percentages and starting to explore nets of shapes.

In literacy, the children have been writing recounts from their visit to Woodlands and writing down their favourite parts of an amazing week.

EID PARTY MONDAY –

If you are able to contribute any food to our Eid party on Monday, please feel free to bring along some food for our whole school celebration in the hall.

KEY DATES:

Haro – Mr Godby

2nd July – Puberty talk

6th July – Sports day

Ob – Mr Stowe

2nd July – Puberty talk

6th July – Sports day

6th July – Final cake sale

Pick up and drop off:

Please come into school in the mornings via the side gates (into the main playground or into the EYFS playground). These gates will be opened just before 8.40 a.m. so that children can go straight into classes.

- ii. Please avoid coming through reception unless you need to speak to our administrators – please ring for entry.*
- iii. We provide breakfast club for children who regularly need to arrive before 8.40 a.m. (please speak to Steph Lowe to enrol). Parents should deliver children to breakfast club by using the after-school-club bell and entering via the hall doors.*

Upper Key Stage 2 Weekly Newsletter

Friday 29th June 2018

- iv. *For those who occasionally arrive early, children may wait in the hall (although parents should be aware that this is not supervised) from 8.30 a.m. until classes are open at 8.40 a.m. Please could parents ring at reception for children to come in (not the bell for breakfast club).*
- v. *Afternoons – the two side gates will be opened just before 3 p.m. Children in EYFS to Y3 will be handed back to parents. Please could children in the KS2 building meet parents in an agreed spot outside on the playground.*
- vi. *If you are late collecting, children should go to the blue chairs in reception to wait. When you arrive, please come to reception to sign them out.*

Homework

There has been a query regarding times tables and how children are being challenged. At the beginning of the year the children start back at the two times table. When they get them right without any errors they move onto the next number. Mrs Robson has challenged all of the children to reach their twelve times table; receiving a chocolate cake as a reward. From there, the children continue with 0.2 through to 1.2.

If your child is on a times table that they are confident with, an additional challenge may be:

- **Learn the inverse e.g $4 \times 5 = 20$, $20 / 5 = 4$.**
- **Time yourself, how quickly can you recall them?**
- **Jumble them up**
- **Make the times table 10 x bigger / smaller!**
- **Don't stop at 12, carry on to 19!**

Homework consists of:

- **Times tables** (set by Mrs Robson)
- **Spellings** (choice of activities – one / week)
- **Takeaway** (project work that is linked to our termly topic)
- **My Maths** (set by their maths teacher)

Homework books are expected to be handed in on a Wednesday and will be handed back to the children on Friday. Please remind the children to hand their books in on time so that they can be marked.

A few children have found navigating *My Maths* and completing the tasks tricky. Unfortunately, you cannot save your progress and then return later to complete your task. This means that the children have to complete their *My Maths* task in one session. Another issue has been not saving work after completing a task. When you complete your task and a result is given, your session is automatically saved and you can close the screen. If you press *next* it will reset the session and all progress will be lost.

The maths tasks are usually linked to our focus in numeracy for that week. If your child logs onto *My Maths* and finds the task too challenging please do not panic! It is absolutely fine for them to attempt some of their own number problems, using the weeks focus, in their homework book.

If you are unsure about any element of the homework please do not hesitate to come and see us. We hope that this is useful, and please let us know if there are any queries.
